* have you entertained? If so, call
* the Review after 6 p. m. and tell
* the Society Editor, Phone 39.

WENT TO TOMBSTONE.

Supervisor Vance Johnson went to Tombstone yesterday where he attended a special session of the board of supervisors. He returned home late last evening.

LEFT FOR PHOENIX.

Mary Josephine Randall, of Warren, was an outgoing passenger for Phoenix last evening, on the Golden State Limited, where she will visit with relatives for a few days.

IS IN CITY.

Walter Fife, the hide buyer, was in the city yesterday on one of his usual monthly purchasing trips. He states that the hide market has dropped considerably since his last visit here.

MARRIAGE.

Mr. J. Earl Osborne of Lowell and Miss Irene McClure of San Antonio, Texas, were married Monday night, March 18, in the Baptist parsonage by the Rev. H. C. Compton.

LEFT FOR OAKLAND.

Mrs. John Saldaña, wife of the local naval recruiting officer, left Sunday night for Oakland, California, where she will visit with her mother, for a few months. On account of the scarcity of houses in the district, he

was unable to find a suitable place for his wife and she decided to spend a few months there on a visit to her mother.

ON VACATION TRIP.

A. R. Kerrman, a miner in the employ of the Copper Queen company at the Sacramento shaft, left yesterday for Chicago where he will visit with relatives and friends for a month.

IS DANGEROUSLY ILL.

The many friends of Policeman George Cook, of Douglas, in the Warren District, will regret to learn that he is seriously ill in the C. & A. hospital in that city suffering from an attack of appendicitis.

WAS IN CITY.

Supervisor John Rock was in the city yesterday from Tombstone where he is engaged in the mercantile business. He was in Wilcox to attend the cattlemen's association and reports a good time was had in spite of the extremely bad weather.

DAUGHTER BORN.

The home of J. W. Coreoran and wife of Tombstone canyon has been blessed by the arrival of an eight-pound daughter. Mother and daughter are both doing nicely. The proud father is an employee at the Junction shaft of the C. & A. Mining company.

ENLISTED IN NAVY.

Clarence Weaver, who claims El Paso as his home, enlisted yesterday in the carpenter's aviation corps; Joseph Anderson of Wisconsin, enlisted in the Radio section; Joseph Anthony Slocum, in the radio section, and Bart Leary as second class seaman, in the local

recruiting office. They were all sent out to El Paso last evening.

FROM NACO.

H. E. Berner, connected with the United States Customs service at Naco, was in the city yesterday on a short business trip. He states that the business of the office is increasing considerably since the Cananea Copper company has resumed operations in Sonora.

EXPECTS ANSWER SOON.

Secretary Tom Egan, of the Warren District Commercial Club, expects to hear favorably from the assistant postmaster general, within the next few days regarding carrying of mail to and from Douglas via stage. Petitions were sent in some time ago asking for such service.

WAS A VISITOR.

L. B. Whitney, former city attorney of this city, at present legal member of the State Commission, was in the city yesterday on a short visit. He arrived Sunday night and was here until 1:30 yesterday, when he went to Tombstone where he has some legal business before the superior court.

WAS SUCCESSFUL BIDDER.

The Cochise Lumber Company of this district was one of the successful bidders for furnishing a part of the hardware for the new cantonments that are to be erected in Douglas. The contracts have been held up for the time being. The Phelps Dodge store also was awarded part of the hardware contract.

HAS RETURNED.

Deputy Sheriff William Brakefield has returned from Wilcox where he went to attend the meeting of the cattlemen's association. He states that the meeting was well attended, but that the weather there was something awful. The wind blew during both days and the alkali dust was thick as mud.

WILL LEAVE THURSDAY.

Advices were received here yesterday that Dr. C. M. Leonard, formerly connected with the C. & A. medical staff, but for the past year city physician in Douglas, has been ordered to report at once at Fort Riley, Kansas, to attend the medical officers training camp. He recently offered his services to the government.

BE HERE FRIDAY.

Dr. Schell, the well known optometrist and optician of Tucson, who has been making regular visits to this district for the past nineteen years, will return on Friday of this week, and will be quartered at the Copper Queen hotel. He will remain the one day only. The doctor has been on the state optometry board of examiners for the past eleven years, and is now secretary of the board.

DELIVERED DESERTER.

Acting City Marshal J. A. Kempton went to Douglas yesterday where he delivered to the military authorities Peter Burla, who is listed as a deserter from the National Army. He was called to service in Missoula, Montana, and failed to report. He was picked up here a few days ago by Kempton and held until the necessary papers arrived from the local board of that city for his induction into the army.

WILL BE HERE AGAIN.

Word was received yesterday by Secretary Tom Egan of the Warren District Commercial Club that G. N. Derner, deputy collector of excess profits taxes will be in Bisbee again the latter part of the month or the first week in April to finish up the work in this locality. He stated that he would be here for three or four days, the exact dates, however, not being fixed. He spent several days here in February assisting those required to pay income taxes to fill out their schedules.

BECOMES UNMANAGEABLE.

Another one of Henry Ford's tin lizards got away from its driver on Main

—IN— "CY WHITTAKER'S WARD"

A typical New England drama, a real heart-interest gem—a play that will bring smiles one minute and tears the next.

ADMISSION—25 AND 50 CENTS

street Sunday evening and jumping across the sidewalk, landed in the display window of the Arizona Grocery but did not stop to consider the glass in the way. The window across the street in the furniture store met a similar fate a few months ago. It costs the drivers considerable to replace the big windows and they should take their unruly flivvers out on the desert to tame them the same as the cowboys do the bronchos to break them in.

ROAD CONDITIONS.

Road reports from the southern part of the state indicate that there is some improvement of road conditions going on. From Yuma to El Centro the roads are reported good except for the damage done by an occasional sandstorm; from Yuma to Caliente they are being improved; from Los Angeles to Parker they are in good shape except in one place near Parker and from Tucson to Lordsburg via Wilcox they are good. The road from Tucson via Benson, Tombstone, through Bisbee, on to Douglas and the east is in very good shape.

FROM RANCH.

Sam Coleman was in the city yesterday from his headquarters on the Lower San Pedro river. He states that cattle in that vicinity are in very good shape and will winter without much loss. He still has the scar on his forehead where it deflected the 44 bullet from the gun of a Villa bandit in Mexico over a year ago. The force of the bullet knocked him unconscious and they left him for dead, but Sam says he fooled them and came back to life after they had gone. He does not care for a similar experience.

IT WAS SOME COLD.

Sunday night was one of the coldest experienced for several weeks. Ice formed in exposed places in Warren and in Tombstone Canyon. The thermometer at the E. P. & S. W. depot, which is in a sheltered place, registered 33 degrees above. The lowest point reached before during the month was 40 on Saturday night. In Warren ice formed over all water that was left standing. It is feared that some damage was done to the fruit trees in Tombstone Canyon but so far none has been reported. There was not as much ice in the vicinity as there was in the vicinity of Warren.

WANT HIS SERVICES.

W. K. Clarkson, the harness maker, who recently sold out his business in this city to improve his home in the foot hills of the Huachuca mountains, was in the city yesterday to answer the call of his country. He had received several letters from the government asking him to fill them out as to his abilities as a saddler and harness maker, and if he was willing to enlist as they were in need of that class of men. He could not resist the appeal any longer and came in to fill out the blank and offer his services. He is now fixing up his homestead so that he can leave on a notice of his country calls him. He is over fifty years of age but is in good health and can do a good day's work on saddles or harness and hold his own with any of them.

WAS HELD TO ANSWER.

Dr. August Sandberg, former metallurgist for the Copper Queen company, was bound over under \$10,000 bond to the federal grand jury by U. S. Commissioner H. C. Beunier, Saturday in Douglas, on a charge of violating the espionage act. Two witnesses, W. B. Cramer and Robert E. Cameron testified for the government, while the defense did not offer any testimony. Dr. Sandberg was accused of having uttered statements inimical to the interests of the United States in the war and having prepared to return to Sweden, his native country. It was said that his going to Sweden might prove beneficial to the enemies of this nation and he was arrested under the espionage act, and, if convicted, will be interned at Camp Douglas, Utah, for the duration of the war.

NO MORE ENLISTMENTS.

Those who have been on the fence and unable to make up their minds as to whether or not to volunteer and enlist in their favorite branch of the army will be chagrined to learn that no more volunteer enlistments in the army will be allowed to men of Arizona. This applies to registered men only. The local board received orders from Provost Marshal General Crowder yesterday requiring them to cancel all voluntary calls into the service. The only way that registered men in Arizona can get into any branch of the army now is to be lucky enough to have order numbers near the top of the list. This order does not apply to the navy or marine corps. Enlistments in these branches of the service are still open. No reason is given for the order from the provost marshal general, but it is known that an enormous number of men have volunteered from the baby state, in proportion to its quota.

THE PATRIOTIC SERIAL

"A Daughter of Uncle Sam"

Episode Number One, With Jane Vance and William Sorelle.

"OVER THERE"

The American Miracle

A miracle of speed, brains, hard work.
A miracle of volcanic energy wonderfully organized into the world's greatest driving force.
A miracle of enthusiasm, determination, PATRIOTISM.
A miracle that YOU must see, now while YOUR boy is one of those being trained in the American can-tonments which Uncle Sam's punch raised to compel a world-beating time.
A miracle that is gloriously presented in a smashing big, vitally timely motion picture.
See "OVER THERE"

America's great achievement, a virgin forest converted into a military city for 40,000 of our boys in fifty-two days.
